Working Experience

Feb'23 -
July'23

Senior Salesforce Developer

Raptbot Technology

In this role, I have been actively engaged in managing multiple projects with a focus on client interaction and understanding their requirements. My responsibilities encompass designing, developing, and implementing well-structured and efficient code that meets the highest standards of quality and testability.

Oct'21 -
Feb'23

Associate Software Engineer

V2 Solutions

In this role, I embarked on a rewarding journey of learning and growth within the realm of Salesforce platform development. This role provided me with a valuable foundation in customization and development on the Salesforce platform, enabling me to contribute effectively to various projects.

Education

Graduation

2023

SRM Institute of Science and Technology

KTR, Chennai

M. Tech Cloud Computing

2017 - 2021

College of Technology And Engineering

Udaipur

Bachelor of Technology in Electronics and Communication Engineering - 67%

Projects

March'23

Kwik Trip

Raptbot

This project aims to connect a travel planning site to the Salesforce ecosystem, allowing for seamless automation and synchronization. To achieve this, I am utilizing various powerful tools within Salesforce, such as Integration, Flows, and Lightning Web Components (LWC).

May'22-
Oct'22

SharePoint Integration

V2 Solutions

Worked on the innovative app exchange product, the SharePoint Connector, which received recognition and was showcased at the prestigious Dreamforce'22 event. This product exemplifies the seamless integration of Salesforce and SharePoint, bridging the gap between these powerful platforms
